

PROFESSIONAL LICENSURE & CERTIFICATION

EXPERIENCED RIDER COURSE

The "ERC Suite license waiver rider course" is designed for a rider who as of yet do not possess a state motorcycle license or endorsement. The ERC Suite is ideal for graduates of the Motorcycle Rider Course: Riding and Street Skills. We recommend that the student get some riding experience then take the ERC Suite periodically. It is NOT designed as a substitute for the Motorcycle Rider Course.

The objective of the ERC Suite is to teach experienced motorcyclists to ride safely; to provide the student with the mental skills necessary for on street riding; and to provide the student with the physical skills identified as lacking in the accident involved motorcyclist. It is informative, fun and a method wherein experienced riders can share their knowledge and skills with other experienced riders. Students MUST have their own motorcycle, a valid motorcycle endorsement on their license and proof of insurance to qualify for this class. The ERC Suite will increase your skills in: maximum cornering stability and control; maximizing and controlling traction; hard breaking in a straight line and in a curve where you have less traction: swerving to avoid obstacles; and spotting critical traffic problems early and reducing the risk. Cost: \$80

HOME STUDY

CHILD & DEPENDENT ADULT ABUSE HOME STUDY

As professionals working with children and adults, you play a vital role in recognizing and reporting suspected child and dependent adult abuse. You may also be designated a mandatory reporter under Iowa Code. In the case of healthcare professionals, mandatory reporters are required by law to complete two hours of training during their first six months of employment and two hours every five years thereafter in order to obtain relicensure. This home study will enhance the knowledge of the mandatory reporter in recognizing and reporting suspected child and dependent adult abuse. 1. Define child abuse according to Iowa law. 2. Discuss the enactment and purpose of the IA. Child Abuse Reporting Law. 3. List those people recognized as mandatory reporters in IA. 4. List and discuss 8 categories of child abuse. 5. Explore the reporting procedures for mandatory reporters. 6. Discuss confidentiality issues associated with child abuse reporting. 7. Discuss the social issues relevant to dependent adult abuse. 8. Define dependent adult abuse. 9. Define caretaker. 10. List signs of environmental, physical and behavioral dependent adult abuse. 11. Explain the rights of the dependent adult to either accept or decline services. 12. List the four categories of dependent adult abuse as outlined by the Code of Iowa. 13. Discuss the purpose of the Central Abuse Registry. 0.2 CEUs Approved for N; 2.0 CEUs Approved Healthcare Professionals. Social Work: This course is eligible for 2.0 hours of continuing education in Iowa. Consult your governing rules to determine if appropriate subject matter criteria will apply to credit hours. BASIC FIRST AID

It is important to be prepared to handle accidents or medical emergencies when you are working in a setting where professional help is not always readily available. Knowledge of Basic First Aid will help you provide appropriate care and treatment when those unexpected situations come up. Knowing what to do in an emergency will help you to provide immediate care for your patient/client who may be endangered by an injury or sudden illness. (Intended for home health/community nursing settings, educators, and other health care professionals). Participants will learn the techniques of basic first aid. 1. Understand the goals of first aid. 2. Learn the basic first aid interventions for a variety of specific situations. 3. Increase the understanding of common medical emergencies and the appropriate care and response. 4. Learn the first aid interventions appropriate to the site of injury. 5. Understanding the legal implications of providing first aid. 0.3 CEUs Approved for N; 1.0 CEUs Approved for NHA Cost: \$25

Must have CPR card to graduate!!!

Iowa Healthy Kids Act

The Healthy Kids Act passed by the Iowa legislators during the 2008 session has four parts including: nutrition, dietetics, physical activity and CPR for all public and private school students.

- Every student by the end of grade twelve shall complete certification course for cardiopulmonary resuscitation (CPR.)
- The administrator of a school may waive this requirement if the student is not physically able to successfully complete the training.
- A student is exempt from the requirement of this paragraph if the student presents satisfactory evidence to the school district or accredited nonpublic school that the student possesses CPR.

HOUSE & GARDEN

BLOODBORNE PATHOGENS

All health care personnel are at risk for exposure to bloodborne pathogens. By using some simple and effective procedures you can protect yourself, your patient, and your co-workers from the spread of infection. By increasing your awareness of prevention, transmission, and exposure to bloodborne pathogens, you can prevent an accidental exposure. Health care personnel will increase their understanding of the safeguards used to protect themselves and others against the health hazards, which can result from exposure to blood and certain body fluids containing bloodborne pathogens. 1. Understand bloodborne pathogens and how they are spread. 2. Learn the importance of the Exposure Control Plan. 3. Identify the steps to take if an accidental exposure occurs. 4. Utilize appropriate safety methods and work practice controls. 5. Recognize signs and labels that are used to alert personnel of danger involving infectious materials. 0.2 CEUs Approved for N; 2.0 CEHs Approved for NA, EMT, DNT, DHYG, RC, LE, and other Healthcare Professionals. Social Work: This course is eligible for 2.0 hours of continuing education in Iowa. Consult your governing rules to determine if appropriate subject matter criteria will apply to credit hours. WILDFLOWER PHOTO ADVENTURE

Take a walk on the wild side at Black Hawk State Historic Site and learn about photographing spring wildflowers. All digital and film cameras are welcome but students should have a basic working knowledge of their camera. This class will meet at the Singing Bird Nature Center for a short presentation and photo tips. We will discuss the challenges of shooting wildflowers in a natural setting, using your telephoto, macro and fill flash or reflectors and then take advantage of Black Hawk's trails to practice the techniques and photograph the park's wildflowers. Wear comfortable shoes and clothing for hiking, bring your camera, (with new or charged batteries) a tripod, if you have it and a garden knee pad for those low shots and an umbrella if showers are possible. Location: Singing Bird Nature Center @ Blackhawk State Park. Cost: \$30

Sat. May 8 9:00 - 11:30AM 79797

AUGUST PHOTO WALK IN THE PARK

Summer is a perfect time to enjoy a twilight stroll with your camera and evening light is the best time to capture the rich colors of leaves and flowers. Join Dee Oberle and Heidi Brandt, Gypsy Chicks Photography, for a Photo Walk in the Hosta Glade and Rose Garden at Vander Veer Botanical Park. Learn how to photograph the diverse leaf shape, size, color, and texture of hostas then, when the sun moves lower in the sky, we will practice taking dramatic close-up portraits of roses. All digital and film cameras are welcome but students should have a basic working knowledge of their camera. Meet in the Hosta Glade at the Park, dress in comfortable clothing, bring a tripod if you have one, a garden knee pad and mosquito repellent. Be sure you have fresh batteries or freshly charged batteries if you are using a digital camera. Cost: \$30
