

INFORMATION TECHNOLOGY

Program Description

Eastern Iowa Community Colleges, separates Information Technology (IT) into two tracks: Networking and Programming (Software Development); then, we provide further specialized concentrations: Augmented and Virtual Reality, Cybersecurity, Networking for Systems and Security, Programming (.NET), and Web Development. Consulting opportunities will continue to grow as businesses increasingly need help managing, upgrading, and customizing more complex computer systems. Cybersecurity is fast becoming one of the most sought after jobs in the marketplace.

Partners

We have partnered with many companies to offer our IT students current curriculum and certification support. We are a Cisco Networking Academy, Oracle Academic Academy, CompTIA, MeasureUp, Certiport, Microsoft Academic Alliance, MTA, MOS.

Certifications

Our curriculum is mapped to certifications; and we provide tools such as practice exams and a testing center to make getting one or more industry-standard certifications while taking classes (ex. Cisco Certified Network Associate, A+, Network+, Microsoft Technology Associate, Oracle) a seamless integration into your coursework.

Award Options

Job Outlook

Demand for Information Technology is expected to increase as computers and software become more complex, these individuals will be needed to provide technical assistance to customers and other users as well as maintain the desktop, server, and security devices on the company network. Consulting opportunities will continue to grow as businesses increasingly need help managing, upgrading, and customizing more complex computer systems. Employment and output in computer systems design and related services are projected to grow rapidly over the next decade, outpacing similar professional, scientific, and technical industries and the economy as a whole. Employment and output in the computer systems design and related services industry is expected to grow rapidly as firms and individual consumers continue to increase their use of information technology services
